

PROJECT REPORT

Canteen Website UI Redesign

Student Name: Jaymendrasinh

Roll Number: IT006

Date: 19 May 2026

1. INTRODUCTION

This project aims to redesign the college canteen website for better user experience. The current website had issues with navigation and visual hierarchy.

2. OBJECTIVE

- Design 4 main screens for desktop 1440px
- Improve food ordering flow
- Create clean, modern UI

3. TOOLS USED

- Figma for UI Design
- Color palette: Orange #FF7A00, White #FFFFFF

4. TIMELINE

Day 1: Research & Wireframes

Day 2: Visual Design in Figma

Day 3: Documentation & Export

5. CHALLENGES FACED

- Maintaining 1440px grid consistency
- Selecting appropriate color contrast for accessibility

6. LEARNINGS

Learned to design systematic UI components and maintain design consistency across screens.

7. CONCLUSION

Successfully completed 4 desktop screens as per brief. The new design improves usability and visual appeal.
